Safety Instructions:

- Observe the safety instructions for the TETRIS SOLID top shelf.
- Do not overload the shelf to ensure stability.
- Keep the shelf away from heat sources to avoid material deformation.
- Do not jeopardise the shelf through improper assembly or use.
- Take into account the maximum load capacity of the shelving in accordance with the manufacturer's specifications.
- Make sure that no sharp objects touch the shelf.
- Avoid placing heavy objects in the upper shelf areas without suitable securing.
- Test the stability of the shelf before each use.
