Safety Instructions:

- Do not overload the crate with excessively heavy objects and pay attention to the load to avoid damage.
- Make sure that the crate is placed on stable surfaces to prevent it from tipping over or sliding.
- Use suitable padlocks for cam locks to prevent damage and unauthorised access.
- Regularly check hinges and catch straps for wear or damage and use them properly to prevent accidental opening.
- Hold and store the crate in an upright position during transport to prevent damage.
- Make sure that the rubber seals are not damaged to ensure protection against dust and splash water.
- Use only for the intended purpose.
- If the crate is wet, allow it to dry well to prevent corrosion.
- Only allow children to use the appliance under supervision and keep it away from children to avoid injury.
- Distribute heavy objects evenly to minimise the risk of tipping.
- Protect the crate from moisture and direct sunlight.
- The crate can become heavy if handled incorrectly; lift with care.
