E-Mail: info@brennenstuhl.de

Please note the technical data of the products!

Article Numbers: 174043, 174037, 174036

Safety Instructions:

- Choking hazard due to small parts that can be swallowed.
- Risk of electric shock if used incorrectly or if the connection cable is damaged. Use child safety locks in the sockets.
- Only use the product indoors and in dry indoor areas to minimise electrical hazards. Do not use the power strip near water sources.
- Check for visible damage before use; do not use if damaged. Check the product regularly to ensure that the safety switch is functioning properly.
- Do not overload the socket strip to avoid overheating and the risk of fire. Observe the maximum power.
- Do not operate safety sockets with wet hands. Keep out of the reach of children; use child safety devices.
- Only use for the specified purpose; do not use for devices with a higher total output.
- Do not use multiple socket outlets where they are exposed to high pressure or mechanical loads.
- Switch off the safety switch of the multiple socket outlet when not in use.
