Safety Instructions:

- Caution: Sharp edges on the table frame can cause injuries. Protect against cuts, especially during assembly and use.
- Ensure that the table is stable to prevent it from tipping over and causing injuries. Regularly check the connections and secure the table legs to ensure stability.
- Assembly should be carried out in accordance with the instructions in order to avoid safety risks and incorrect assembly. Read the instructions carefully before assembly and ensure that all parts are correctly fitted.
- When using the table, do not place any heavy or heated objects on it to avoid the risk of fire and overloading the structure. Protect the table surface from heavy objects that exceed the load capacity.
- Avoid sitting or standing on the table to prevent accidents.
- Keep the table away from water, extreme moisture and other liquids to prevent damage.
- Regular inspection for damage or wear to components is recommended to minimise safety risks.
- Bear in mind that sharp objects can leave scratches on the table surface. Do not use harsh cleaning agents to clean the surface.
- Limit the use of the table to its intended purpose (e.g. for conferences or as office furniture) to prevent improper use.
- Protect the table surface from direct sunlight to avoid discolouration.
- Suitable for indoor use only.
- Check the product regularly for possible damage.
- Secure the table legs regularly to ensure stability and safety.
