Article Numbers: 191997, 191996, 191995, 191994, 191993

Safety Instructions:

- Ensure that the product has been designed and manufactured in accordance with the general safety requirement and that clear, easily understandable instructions and safety information are provided.
- Evaluate potential risks associated with the use of the product and take necessary corrective action if safety risks are identified.
- The identifiability of the product must be guaranteed by a type or batch number.
- Take care to avoid sharp edges as there is a risk of injury and check regularly for strength and stability to prevent tipping or choking.
- Ensure that the partition walls are set up stably to prevent them from tipping over. Use floor levelling screws to prevent wobbly constructions.
- Follow the assembly instructions carefully and ensure that all connecting fittings are correctly and securely fitted. Suitable tools are required to ensure safe installation.
- Set up partition walls securely in a stable location. Avoid proximity to heat and water sources in order to maintain material stability.
- Caution: Glass could break and cause injury; take care when handling.
