Safety Instructions:

- Adjust seat height and backrest to individual requirements for safe use.
- Provide clear instructions for height adjustability and other adjustment functions.
- Regularly check the upholstery and mechanics for wear and tear to prevent injuries.
- The chair can be loaded up to a weight of 120 kg; do not exceed the recommended weight.
- Avoid using the chair for more than 8 hours a day; regular breaks and changes of posture recommended.
- Select castors suitable for the respective floor type to avoid accidents.
- Ensure simple and understandable instructions for using the chair.
- Inspect the chair for possible damage before use.
- Only suitable for use by adults or under adult supervision.
- Ensure that all mechanical settings are made correctly before use.
- Adjust the armrests so that they do not put pressure on the shoulders; do not sit or lean on the armrests.
- Regular care and cleaning of the cover is necessary for safety and hygiene.
