Safety Instructions:

- Suitable for users up to 125 kg. Avoid excessive load to prevent damage or injury.
- Not suitable for children under 14 years of age.
- Regular inspection of the mechanics and armrests for functionality and safety is recommended to avoid accidents.
- Take care when adjusting the height and settings of adjustable parts (backrest, seat height) to prevent injuries.
- Avoid the risk of pinching fingers when making adjustments.
- Suitable for use on carpets and hard floors. Be aware of the risk of slipping on smooth surfaces without an underlay.
- Avoid strong weather influences such as direct sunlight and moisture.
- Be aware of the risk of suffocation due to improper adjustment of the backrest and seat in case of insufficient height or body weight.
- Risk of injury due to incorrect application or improper use of the mechanisms.
- Recommended sitting time over 8 hours, but regular breaks recommended for health prevention.
- Ensure correct installation to avoid stability problems.
- Adjust the spring force of the backrest to your body weight for comfort and support.
- Clean and dry castors are required for accident-free gliding on various surfaces.
