Safety Instructions:

- Keep the whiteboard away from flammable materials, heat sources or direct sunlight to avoid discolouration or damage.
- The whiteboard must be securely positioned and locked in place to prevent it from tipping over; this applies in particular to tilting installations.
- Ensure that the castors can be locked to prevent them from slipping or rolling away. The castors should be used on level, smooth surfaces.
- Only use markers or writing instruments that are suitable for the painted surface to avoid damage.
- The edges and corners of the whiteboard can be sharp. Protection of all surfaces and caution in use are important.
- Children should not play unsupervised near the whiteboard; this avoids the risk of injury and choking on small parts.
- The whiteboard should not be used in areas with high humidity or aggressive chemicals.
- Transport the whiteboard carefully to avoid knocks and damage.
- Not suitable for children under 3 years of age due to potential risk of injury.
- Check all connections and screw heads regularly to ensure stability.
