Safety Instructions:

- Use and storage only within the specified temperature range of -20° to +80°C. The container must not be used at temperatures below -20°C and above +80°C.
- Keep the product out of the reach of children as it is not suitable for use as a toy.
- Protect from excessive load or mechanical damage. Pack the container securely during transport to prevent damage.
- Carry out regular visual inspections for damage or wear.
- Check packaging and ingredients for possible allergens.
- The container is not suitable for contact with food unless it is expressly labelled for this purpose.
- The bracket and hinged lid must be used correctly to ensure safe handling.
