Article Numbers: 90005, 90004, 90003

Safety Instructions:

- The drawers are made of conductive polypropylene and should be protected from heat and direct sunlight.
- Do not store near open flames or in a damp environment.
- The drawers are not suitable for storing food.
- Before use, ensure that the drawers are correctly fitted into the shelf.
- Do not clean with chemical cleaning agents or solvents to avoid damage.
- Do not use at temperatures below -20 °C or above +80 °C to prevent material damage.
- The drawers may break if used incorrectly; protect against the risk of impact and puncturing.
- The product should be used out of the reach of children to avoid the risk of choking.
- Avoid small parts when assembling or handling to minimise the risk of choking.
- If used improperly, the product can store electrical charges.
- Supplied without labels; avoid incorrect labelling.
- The large label area must not be used beyond its intended purpose.
