Safety Instructions:

- Ensure that the partition is assembled and dismantled stably and is securely mounted in accordance with the instructions to prevent it from tipping over.
- The sharp edges of the glass and other parts can pose a risk of injury; handle them with care during transport and handling.
- Only use the set screws provided for fastening the partition wall and check regularly that they are tight.
- Only use the product in accordance with the instructions for installation and use.
- Keep children away from the partition wall to avoid injury from falling or broken glass.
- The partition wall is not suitable for use in areas with high humidity unless it has been specially designed for this purpose.
- Keep the partition away from heat sources and naked flames to prevent material damage.
- Ensure that the partition is placed on a level surface and in a sufficiently ventilated area to prevent it from falling over and condensation forming.
- When using plastic elements, ensure that they are correctly inserted into the aluminium profiles.
- Avoid overloading the partition wall to ensure stability and safety.
- Supplied without mounting stops. Independent assembly is required.
- Materials can be broken if handled improperly. Prevent the fragments from breaking.
