Safety Instructions:

- Sound absorption class C - ensures a quiet and pleasant working environment.
- All materials are flame-retardant in accordance with DIN 4102 (B1) - please note when handling. Keep the partition wall away from naked flames or extreme temperatures.
- The partition wall must be installed correctly and securely to ensure stability and prevent it from falling over. Ensure that all parts are correctly fitted.
- Avoid contact with water or liquids to prevent damage to the acoustic panels.
- The product is designed for use in office environments and should not be used for other purposes or outdoors.
- Materials are recyclable - observe the disposal guidelines.
- Use the partition wall according to the intended modular arrangement to ensure stability.
- There is a risk of mechanical injury if handled incorrectly.
- Eliminate sharp edges during transport and installation and avoid excessive pressure on the panels to prevent damage.
- Avoid inadequate ventilation of the installation site to prevent the accumulation of moisture.
- Unattended fires should be avoided.
