Safety Instructions:

- Do not use the partition wall for climbing or as a toy. Do not use as a support or holding device.
- Make sure that the partition is stable and securely positioned to prevent it from tipping over.
- Avoid having children near the partition wall to minimise the risk of injury.
- The partition wall should be checked regularly for damage to ensure safety.
- All materials used are flame-retardant in accordance with DIN 4102 (B1). Avoid open flames in the vicinity and take this into account in fire protection concepts.
- The elements are modular and may require the help of several people during assembly to avoid toppling or unforeseen movements.
- Wear protective gloves during assembly and disassembly to avoid injury from sharp edges.
- Ensure that the partition is correctly installed to ensure stability and safety.
- Ensure that the partition is used in a suitable location to avoid accidents.
- Ensure proper fastening during installation to avoid injury from falling parts.
- Use suitable protective equipment during installation to prevent injuries.
- Sound absorption properties can be important for people with hearing impairments.
