Article Numbers: 191645, 191644, 191643, 191642

Safety Instructions:

- Only use indoors to avoid fire and safety risks.
- When setting up, ensure extremely stable surfaces and a stable and secure installation to prevent toppling.
- The partition wall is flame-retardant in accordance with DIN 4102(B1) and should be installed in accordance with the applicable fire protection guidelines and manufacturer's instructions.
- Regularly check that the wall is secure, especially if changes are made to the room design.
- The partition should not be used as a support and is not suitable as a barrier for emergency exits.
- Observe maximum weight and size restrictions to ensure structural integrity and avoid excessive loads.
- Ensure that children are supervised during handling to avoid the risk of injury.
- Avoid naked flames or heat sources in the vicinity, as the materials are flame retardant but precautions against fire must still be taken.
- Avoid risk of injury from sharp edges or points during handling.
- Installation should be carried out by trained specialists to ensure that all components are installed correctly and safely.
- Only use suitable mounting and fastening elements.
