Safety Instructions:

- During installation, make sure that the end pillar is securely fastened and that the partition wall is stably fixed both with the floor fastening and at its installation location to prevent it from toppling over.
- The materials are flame retardant (DIN 4102 B1), therefore special precautions should be taken when close to heat sources or open flames during installation or use. Keep hot materials away.
- Take care not to overload the elements to minimise the risk of structural damage and failure.
- Wear suitable protective equipment during assembly, disassembly and use to avoid injury.
- Use in nurseries or with children under adult supervision is recommended, taking care that they are not suitable for children as there are sharp edges.
- Installation must be carried out in accordance with the manufacturer's instructions to ensure safety.
