Safety Instructions:

- Use the executive chair in accordance with the manufacturer's instructions and avoid improper use to prevent injury and damage.
- Maximum load: 110 kg. Exceeding this can lead to damage or injury.
- Avoid sudden movements to prevent injuries caused by the backrest.
- Ensure that the armrests are set to the correct height when required and are checked regularly to ensure that they function properly.
- The chair is not suitable for children and should be kept out of their reach. Do not allow children to play with it or climb on it.
- Take particular care during assembly and use to avoid injury from sharp edges or moving parts. Ensure that the safety lift is installed correctly and that the safety mechanisms, including the knee rocker mechanism, function properly.
- Choose the right castors for carpeted floors to avoid damage.
- Clean the cover according to the instructions to prevent damage.
- The recommended sitting time is a maximum of 8 hours to avoid health problems.
