Please note the technical data of the products!

Article Number: 157012

Safety Instructions:

- The product is made of reinforced sheet steel and should be protected from heavy impacts or extreme conditions.
- The drawers have a load capacity of up to 200 kg, so make sure that the weight is evenly distributed when the drawers are fully extended to prevent them from tipping over.
- The appliance should not be overloaded to prevent the drawer technology from failing.
- Safety information and handling instructions must be provided in plain language.
- The product should be checked regularly for wear or damage, especially the drawer mechanism.
