Safety Instructions:

- This product could tip or fall over due to improper use, so take care in strong winds. Improper installation could cause the product to fall over, so ensure correct installation in accordance with the instructions.
- The product should only be used in designated areas to avoid accidents. The product is intended for use in public areas; make passers-by aware that this is a restricted area.
- The webbing cassette has a centrifugal brake; incorrect handling can result in injury. Ensure that the webbing is fully retracted to avoid injury. Caution: The webbing can retract quickly when pulled out; risk of injury due to constrictions.
- Ensure that all parts of the product are regularly checked for damage to avoid safety risks. Ensure that the post is firmly anchored to avoid the risk of it falling over.
- No direct electrical risks, but care should be taken when dismantling and setting up to avoid injuries from falling.
- Do not use the product in the presence of small children to prevent a possible choking hazard due to parts. Not suitable for children under 3 years of age as there is a choking hazard due to small parts.
- When setting up, ensure that there is sufficient distance from pedestrians and roadways.
