Safety Instructions:

- Before use, observe the maximum load capacity of the shelves of 50 kg.
- Risk of tipping over if used improperly or if the load is shifted too far.
- The inclined shelves must not be loaded beyond the maximum inclination of 30 degrees.
- Use swivel castors with brakes to prevent the trolley from rolling away.
- Attention: Not intended for children, choking hazard due to small parts in the vicinity.
- During maintenance work, ensure that the trolley is stable and not overloaded.
- Ensure that the appliance is loaded correctly during transport to prevent it from tipping over.
- Avoid overloading the shelves; do not exceed the maximum load capacity.
- Ensure that the swivel and fixed castors are properly secured before use.
- Check the product regularly for damage or wear and tear to avoid safety risks.
