Article Numbers: 99151, 99150, 99106, 99105

Safety Instructions:

- Max. Load capacity: 500kg. Ensure that the workbench is not overloaded to avoid structural damage and injury.
- The workbench is resistant to splash water, oil and grease; however, remove all liquids immediately to prevent damage.
- Observe safety regulations and use suitable aids when lifting heavy workpieces.
- Only use the workbench when dry to minimise the risk of slipping; use in dry environments.
- Place the workbench on a stable, level surface to prevent it from tipping or falling over; assemble all parts correctly.
- Use and assembly only by qualified specialists.
- Regularly inspect the workbench for wear or damage.
- In the event of heavy soiling and to protect against chemicals, use suitable cleaning agents that are recommended for multiplex boards.
- Do not load the workbench beyond the maximum recommended load.
- Use in assembly, testing or production areas in accordance with safety regulations.
