Article Numbers: 26666, 26665

Safety Instructions:

- Avoid injuries caused by improper use of the doors and locking mechanisms or sharp objects to prevent crushing.
- Ensure that small parts are securely attached to avoid the risk of suffocation.
- Regularly check the body for rust or damage to prevent injury.
- Users should be advised not to use the products for other purposes.
- Ensure that the clothes locker is stable to prevent it from tipping over.
- Towel rails must not be overloaded to avoid injury.
- The use of the cylinder lock should be explained to users to prevent misuse or damage.
- Regularly check the ventilation slots to ensure sufficient air exchange and prevent mould growth.
