Please note the technical data of the products!

Article Numbers: 132299, 132298, 132297, 132296

Safety Instructions:

- Not suitable for children as there is a choking hazard due to small parts.
- Do not use the product near open flames or heat sources.
- Only fill with suitable sand; do not exceed the recommended sand weight (approx. 6 kg).
- During assembly, ensure that all parts are completely secure to prevent them from falling over and causing injury.
- If used improperly, the weather resistance may be impaired.
- Provide labelling and safety information in understandable language.
- The product may pose a health risk if used improperly.
- If used outdoors, protect from possible weather influences.
- Keep the product out of the reach of children.
- Observe the operating instructions for safe installation.
- Due to the optional accessories (protective roof and floor plate), there is a risk of improper installation, which can lead to injuries.
- Secure the canopy properly to prevent it from falling over or blowing away in windy conditions.
- Avoid placing the pedestal ashtray near flammable materials.
- Make sure that the pedestal ashtray is stable to minimise the risk of it falling over.
- Not suitable for children under 3 years of age as it contains small parts.
- Made of weather-resistant plastic, but check regularly for wear.
