

Product Safety Information

Aluminum wedge bridges type SB-2

Manufacturer/Responsible Person: ALTEC GmbH, Rudolf-Diesel-Straße 7, 78224 Singen, Deutschland

E-Mail: info@altec.de

Please note the technical data of the products!

Article Numbers: 97711, 97710

Safety Instructions:

- Specify the required height difference 'H' when ordering to ensure safe use. Incorrect information can lead to improper use.
- The maximum load capacity of the wedge bridge is 3000 kg per unit. Overloading can lead to dangerous situations. To avoid injury and damage, do not overload the wedge bridge.
- Goods cannot be exchanged. Make sure that the product meets your requirements before you buy it.
- Only use the bridge with suitable industrial trucks such as pallet trucks or forklifts to avoid accidents.
- There is a risk of slipping when crossing steps and thresholds: please ensure that the wedge bridge is positioned securely.
