Article Numbers: 39532, 39531

Safety Instructions:

- Max. Load capacity: 120kg. No overloading of the shelf beyond the maximum load capacity.
- Ensure that the shelf is correctly mounted in the rack to prevent instability or slipping.
- Regular inspection for damage or wear to the shelf.
- Avoid electrical hazards caused by damp environments or excessive dust.
- Make sure that there are no loose objects on the shelf during use.
- Make sure that the ventilation slots are not blocked to prevent devices from overheating.
