Safety Instructions:

- Ensure that the appliance base is correctly mounted in a stable and secure server cabinet to prevent it from tipping or falling over.
- Avoid overloading the appliance base beyond the specified load capacities to prevent damage to the equipment, structural damage and injury.
- Ensure that all electrical connections are properly insulated and that the necessary safety precautions are taken to prevent short circuits and electric shocks.
- Regularly check the condition of the appliance base and the installed appliances for signs of wear or damage.
- Use suitable aids when installing or removing appliances to minimise ergonomic risks.
- The appliance base should be installed in accordance with the manufacturer's instructions to avoid the risk of damage or malfunction.
