Please note the technical data of the products!

Article Numbers: 72994, 72993, 72992

Safety Instructions:

- Before use, ensure that the lashing strap is undamaged and free from damage.
- Do not overload the lashing strap beyond the specified tensile force (2500 daN directly, 5000 daN in the strapping).
- Only apply tractive forces in accordance with the manufacturer's specifications and safety instructions.
- Do not use the belt as a harness for pulling people; not suitable for passenger transport.
- When using in extreme temperatures (-40 to +100°C), ensure material compatibility and observe protection against extreme heat or cold.
- Protect webbing and all elements from chemical influences, unless expressly required. Ensure good chemical resistance to acids.
- Avoid using lashing straps near sharp edges that could damage the material; avoid contact with sharp objects.
- Use suitable techniques to prevent damage when transporting sensitive goods.
- Do not use in the vicinity of children as there is a risk of suffocation from small parts.
- Improper use can damage the product and cause injury.
- During use, ensure secure fastening and the use of suitable clamping and connecting elements.
- Wear protective clothing and equipment in accordance with the applicable safety regulations.
