Safety Instructions:

- Risk of suffocation due to improper use and improper handling, especially when stacked.
- Risk of injury due to crushing when stacking or removing pallet collars.
- Ensure that the load capacity of 750 kg is not exceeded in order to avoid structural failure.
- Use only on stable and suitable surfaces to prevent tipping or overturning.
- Only use the product on level surfaces to prevent it from tipping over.
- Stack a maximum of three on top of each other to ensure structural integrity.
- Carry out regular inspections for damage and wear.
