Article Numbers: 881674, 881673, 881672, 881671, 881670, 881669, 881668

Safety Instructions:

- Ensure that the impact protection brackets are properly installed and anchored to ensure stability.
- Use only in the intended area of application for indoor and outdoor areas, observe ambient conditions and weather influences.
- Take suitable protective measures during installation and wear personal protective equipment (PPE) to avoid injury.
- Carry out regular inspections and maintenance of the bull bars to quickly recognise damage and ensure safety.
- Do not use as a restraining device for vehicles.
- Small parts that can fall off during assembly work pose a choking hazard. Keep children away during assembly.
- Avoid direct contact with sharp edges during installation.
- If the impact protection bars are damaged, repair or replace them immediately.
- Before installation, make sure that the substrate is stable to ensure stability.
- Draw attention to the risk of collision damage and take preventive measures to protect people and property. Use in the vicinity of traffic routes should take visibility and signposting into account.
- Use suitable tools and safety equipment for installation.
- Be aware of possible dangers from falling or heavy objects in the vicinity.
