Safety Instructions:

- Risk of suffocation from improper handling due to heavy components.
- Risk of injury due to improper installation or use.
- Ensure that the surrounding area is free of obstacles during installation to prevent falling or injury.
- Keep fingers away from moving parts when attaching or removing the bollards.
- Do not use bollards as a suspension or restraint system.
- Anchor the bollard properly to prevent it from tipping over.
- Wear protective clothing to avoid injury from sharp edges or heavy parts.
- Use correct lifting techniques to avoid injury when handling heavy materials.
