## Folding floor container FB 1000 with rubber suspension

Please note the technical data of the products!

**Article Numbers:** 76069, 76056, 76055, 76054, 76053, 76052

### Safety Instructions:

- Only use the hinged floor container in accordance with the manufacturer's instructions and observe the enclosed instructions for safe use.
- Avoid overloading the container above the maximum load capacity of 1250 kg to prevent structural damage and accidents.
- Secure the hinged floor container during use to prevent it from tipping over and accidentally sliding off; ensure that the safety devices are working properly.
- Keep your distance when emptying the bottom flap to avoid injuries caused by jolting and to ensure that nobody is in the danger zone.
- Use suitable equipment (forklift, crane) for safe transport and ensure a proper connection to prevent unhooking and slipping.
- Observe safety when lifting and transporting and ensure that the weight and load capacity (max. 1250 kg) are checked.
- Avoid using the container on uneven surfaces and wear protective clothing when working with heavy loads.
- For use with pallet trucks, the fork lengths of at least 1100 mm must be observed.
- Please note the underride height of 100 mm: Only suitable for specific transport equipment.
- Use suitable personnel to operate the container and follow the operating instructions.
