Article Numbers: 93452, 93451, 93450, 93449, 93448, 93447

Safety Instructions:

- Risk of suffocation due to improper handling of the rolling platform.
- Risk of falling due to improper use or incorrect operation of the platform.
- Ensure that the rolling platform is used on a firm and level surface to avoid the risk of tipping.
- The castors must be locked when climbing onto the platform to prevent movement and slipping.
- In accordance with BGI 637, handrails on both sides are required from a platform height of 1000 mm, order handrail separately.
- Check all parts for damage and wear before use.
- Do not allow more than the maximum recommended number of people on the platform.
- Wear suitable, non-slip shoes during use.
- Do not use the platform in bad weather or wet conditions to avoid the risk of slipping.
- Remove all obstacles and tripping hazards in the vicinity of the platform.
- Risk of electric shock due to improper use of electrical components (if present).
- Risk of crushing due to moving parts and castors.
- Children should not be allowed to use the mobile platform.
