Safety Instructions:

- Protect the box from direct impact to prevent damage.
- Do not overload box to ensure structural integrity and do not load product above the recommended total weight to ensure stability and handling.
- The box is not suitable for storing food.
- Ensure that the lid is properly closed to minimise the risk of opening and injury during transport.
- Keep the box away from children to avoid the risk of accidental injury.
- Be careful when using on slippery surfaces to avoid falls.
- Be aware of the risk of ignition from certain materials and keep away from naked flames or high temperatures.
