Article Numbers: 153499, 153498, 153497, 153496, 153495, 153494, 153493

Safety Instructions:

- Not suitable for direct contact with hot food or liquids.
- Observe material compatibility when using chemicals.
- Check suitability before use with food and follow all enclosed instructions.
- Do not use above the recommended temperature range to avoid material deformation and do not exceed the recommended temperature limit.
- Protect the product from direct sunlight and high temperatures.
- Suitable for use in the freezer compartment, but not in the microwave.
- Ensure complete emptying before disposal.
- The enclosed instructions must be observed for safe use.
- Not suitable for children under 3 years, choking hazard due to small parts.
- Do not use for storing hot, aggressive chemicals to avoid damage.
- Ensure that the lid is firmly in place to prevent leakage.
- Check product regularly for wear or damage and dispose of if no longer safe.
- Clean thoroughly before first use.
- Do not overheat or stack in an uncontrolled manner.
- Store safely to avoid contamination.
- Keep out of reach of children.
