Article Numbers: 175170, 175158, 175157

Safety Instructions:

- Beware of tripping hazards due to improper cable routing.
- For outdoor use, ensure that the cable reel is suitable for outdoor use.
- Do not overload cable drums, observe maximum current.
- Ensure that the cable reel does not get wet to avoid the risk of short circuits.
- Always unwind the cable reel completely after use to avoid overheating.
- Only use the product indoors or on stable construction sites.
- Ensure that the cable is protected against moisture and overloading.
- Use the parking and rolling brake to prevent unintentional rolling.
- Check the cable regularly for damage or wear.
- Keep the cable reel away from children to avoid injury.
- If the cable or drum is damaged, do not use it and dispose of it immediately.
- Risk of injury due to improper handling, follow the instructions.
- Ensure that the drum is locked in the housing to prevent it from rolling away.
