Safety Instructions:

- Ensure that the chair is standing securely on a stable and level surface to prevent it from tipping over.
- When using on smooth surfaces, ensure that the castors are non-slip, especially when using on carpeted floors.
- Only operate the height adjustment mechanism with even pressure and on suitable surfaces to avoid damage.
- Regular inspection and maintenance of the chair for wear and damage to ensure safety.
- Keep small parts and mechanisms out of the reach of children to avoid the risk of suffocation or injury.
- Only use chairs for their intended purpose and area of use, e.g. office or lounge, and not for children.
- Keep the chair away from flames and strong heat sources.
- Avoid excessive strain on the chair to minimise potential damage and risk of injury.
- Adjust the chair correctly to avoid injury from moving parts and to ensure correct use of the tilt mechanism.
- Observe the maximum specified load capacity and ensure that castors are used appropriately on carpeted floors.
- The height-adjustable chair is not designed for use by children; children should only use it under supervision.
- Install all parts correctly during assembly to prevent the risk of tipping or falling.
- Be aware of the risks of loose parts or chemical odours from the materials used and ventilate if necessary.
- The visitor chair has an automatic return mechanism; ensure that it returns correctly to prevent falls when getting in and out.
