Article Numbers: 22095, 22094

Safety Instructions:

- Observe fire protection regulations when storing hazardous substances.
- Safety measures when using the cabinet due to the fire resistance of 90 minutes.
- Use of suitable safety clothing when handling hazardous substances.
- Check the cabinet for damage before use.
- Safe handling and stowage of hazardous substances.
- Securing the door in the event of fire with the door hold-open system. In the event of a fire, the door hold-open system ensures an automatic closing mechanism.
- Regular training for employees on the safe handling of hazardous substances.
- Read the operating instructions carefully before first use.
- Use the product only in accordance with the intended applications.
- Wear suitable personal protective equipment when working with hazardous substances.
- Ensure the storage of flammable liquids in accordance with TRGS 510.
- Take the weight of the cabinet into account and use suitable lifting gear.
- Check the drip tray regularly for damage or fill level.
- Follow the local regulations for hazardous substances during disposal.
