Article Numbers: 38655, 38654, 38647

Safety Instructions:

- The observation mirror must be securely mounted on the ceiling to prevent it from falling.
- The mirror is not suitable for outdoor use, but only for indoor use.
- Avoid using the mirror in places with extreme heat, moisture or chemicals to prevent damage to the acrylic glass.
- The mirror should be checked regularly for cracks and damage to ensure safety and a clear view.
- If the mirror is damaged or broken, it should be replaced immediately so as not to jeopardise safety.
- Keep the mirror clean from dust and dirt to avoid misinterpretation.
- Take care when handling the mirror to avoid injury from falling or crushing.
- Follow the manufacturer's installation instructions and installation kits to ensure correct installation and minimise the risk of falling.
- Safety instructions for installation and use should be clearly visible to all users.
- Avoid impacts that could impair the impact resistance of the acrylic glass.
