

Product Safety Information

Robust snow pusher SCH-G 180

Please note the technical data of the products!

Article Number: 73699

Safety Instructions:

- Safety warning: If used incorrectly, there is a risk of injury due to slipping or incorrect lifting of the snow pusher.
- Caution: The product is heavy (184 kg) and requires additional support for lifting and transport.
- Caution: The forks provide reliable protection against unintentional slipping, but should always be used with extreme caution.
- Note: The rubber scraper blade should be checked regularly for wear and replaced quickly if necessary to ensure the effectiveness of the scraper blade.
