

Product Safety Information

Robust snow shovel SCH-G 210

Please note the technical data of the products!

Article Number: 73698

Safety Instructions:

- Caution: Due to its heavy weight (236 kg), operating the snow pusher can be dangerous. Only use by experienced persons.
- There is a risk of slipping when used on sloping surfaces. Caution is advised.
- Risk of injury when using the snow plough in unsuitable weather conditions. Use is only recommended when there is sufficient visibility and the ground is stable.
- Please ensure that there are no people or animals in the working area before the snow pusher is put into operation.
- Local regulations must be observed when handling on public roads.
