Article Numbers: 154799, 154798, 154797, 154796

Safety Instructions:

- Caution, improper handling may result in injury.
- Ensure that the load capacity of 100 kg is not exceeded.
- Avoid the risk of crushing when adjusting the track width and height.
- Ensure that the scissor roller tracks are stable and on a level surface to prevent them from tipping over.
- Read the operating instructions carefully and observe them.
- Use by children only under the supervision of an adult.
- In the event of damage or signs of wear, take out of service immediately.
- Only use the scissor roller tracks in accordance with the manufacturer's instructions.
- Check the mechanical parts regularly for wear and damage.
- Keep the work area free of obstacles.
- When pulling out the roller conveyors, make sure that no body parts are crushed.
- Provide clear instructions for use for all operators.
- Ensure that the construction is stable and safe.
- All connections and fuses must be checked for strength before use.
- Take care when moving and removing the conveyor lengths to avoid injury.
- The product should only be used on a stable surface.
- Suitable safety precautions must be taken to avoid crushing.
- All users should be trained in the use of the product.
- Keep fingers and other parts of the body away from moving parts during use.
- Check the product regularly for damage or wear.
- Not intended for use in damp or wet environments.
