

Product Safety Information

Mobile welding protection panel, 1-piece, 0.4 mm thick film, EN ISO 25980, W 2100 x H 1920 mm, d.green or red

Manufacturer/Responsible Person: KEMPER GmbH, Von-Siemens-Str. 20, 48691 Vreden, Deutschland
E-Mail: mail@kemper.eu

Please note the technical data of the products!

Article Numbers: 91964, 91963

Safety Instructions:

- Compliance with the regulations of DIN EN ISO 25980 for health and safety during welding.
- Only use the crash barrier for its intended purpose and ensure that it is stable and secure before use.
- Regularly check the film covering for damage to protect against unexpected damage.
- Keep the area around the safety barrier free of obstacles to avoid tripping hazards.
- Ensure that safety instructions and information are provided in an understandable language.
- Ensuring protection of the eyes and skin during welding. The protective screen does not provide complete protection against hazardous radiation and only serves as additional protection.
- Take care when installing near heat sources or in unsupervised conditions.
- Protect the foil-based construction from sharp objects and extreme weather conditions.
- The use of the crash barrier is intended exclusively for commercial users; private use may entail unforeseeable risks.
- Using the protective screen at an insufficient distance from welding work can result in health risks.
- The safety castors cannot be fully locked on uneven surfaces; ensure adequate stability.
