

Product Safety Information

Mobile welding protection panel, 3-part, 0.4 mm thick foil, EN ISO 25980, W 3800 x H 1920 mm, d.green or red

Manufacturer/Responsible Person: KEMPER GmbH, Von-Siemens-Str. 20, 48691 Vreden, Deutschland
E-Mail: mail@kemper.eu

Please note the technical data of the products!

Article Numbers: 91962, 91961

Safety Instructions:

- Caution: Risk of injury from sharp edges of the protective wall.
- Before use, ensure that the protective screen is stable and correctly installed.
- The protective wall is not designed for outdoor use.
- The protective screen should only be used in well-ventilated areas to prevent the accumulation of hazardous gases.
- Exposure to extreme temperatures and weather conditions can damage the film.
- Use only with suitable protective equipment (gloves, safety goggles) during welding. Always wear suitable personal protective equipment (PPE) when welding.
- Only use the welder's protective screen in the intended environment.
- Secure the protective wall properly to prevent movement during welding.
- Ensure that the film curtain is attached correctly to ensure complete coverage.
- Ensure that the castors are unlocked before repositioning the wall.
- Avoid flames or hot surfaces near the protective wall to prevent fire hazards.
- The protective wall should be checked regularly for damage.
- Observe all applicable work and safety regulations when using the safety barrier.
