Article Numbers: 91968, 91967

Safety Instructions:

- Only use the protective screen for its intended purpose to avoid safety risks and follow all other local regulations for the safe operation of welding equipment.
- Regularly check the condition of the louvres for cracks or damage as well as for safety and functionality in accordance with DIN EN ISO 25980 to ensure complete protection against sparks and UV radiation.
- Ensure that the crash barrier is stable and secure, with castors properly locked to prevent movement and tipping over during use.
- Make sure that moving parts, such as the rollers, are free of dirt to ensure proper function.
- Do not leave the appliance unattended when it is in use.
- Keep the area around the safety barrier free of obstacles and hazardous materials.
- Suitable personal protective equipment such as safety goggles, gloves and protective clothing must be worn when using the welding protection wall.
