Safety Instructions:

- Observe the maximum load to ensure safety.
- Only descend from a suitable height.
- Always use safety bars to prevent falls.
- Use non-slip steps to prevent slipping.
- Check the stairs for stability before use.
- Do not overheat or overload the stairs.
- Take care when using on uneven surfaces.
- Only use transport castors when the stairs are folded.
- Only use by one person at a time to avoid overloading.
- Ensure that the stairs are on a stable, flat surface.
- Keep out of reach of children due to the risk of falling.
- Hold on tightly during use and use the safety bar to prevent falling.
- Check the stairs regularly for wear and damage.
- Only use on level surfaces to prevent tipping.
- Keep windows and doors closed while using the stairs.
- Do not exceed the maximum weight to avoid structural damage.
- Follow the manufacturer's instructions for installation and use.
- Make sure that the steps are always clean and dry to avoid the risk of slipping.
- It should only be used by children under the supervision of an adult.
