Article Numbers: 142578, 142577, 142576, 142575

Safety Instructions:

- At low temperatures, it is necessary to fill approx. 3 litres of antifreeze into the pedestal to prevent frost damage.
- Ensure that the customer stopper remains stable in strong winds; secure properly in extreme wind conditions.
- If used outdoors, check regularly that the base is sufficiently filled with water or sand to ensure stability.
- Use of water to fill the stand is recommended; use sand only if necessary.
- We recommend installing in places protected from the wind to minimise the risk of falling over.
- The product is designed for outdoor use, please note the weather conditions and only use it in stable weather conditions.
- Make sure that the customer stopper is placed on a stable, level surface.
- Prevent children from playing with the product, especially if there are loose parts.
- Before use, all parts should be checked for damage to ensure safety.
- Ensure that the customer stopper is properly installed and maintained to avoid hazards.
