Article Number: 305864

Safety Instructions:

- Caution: Working under voltage can lead to serious injuries. When using the screwdriver, care should be taken to ensure that no electrical parts are touched unless the screwdriver is certified for this purpose.
- The protective insulation in accordance with DIN EN 60900 is essential to protect the user. Check the integrity of the insulation regularly to avoid dangerous electric shocks.
- Suitable personal protective equipment (PPE) such as gloves and safety goggles are required when working with the screwdriver.
- The screwdriver may only be used by trained and authorised specialist personnel who are familiar with the risks involved in working on electrical systems.
