Please note the technical data of the products!

Article Number: 305867

Safety Instructions:

- Only use the screwdriver on de-energised parts, unless the application involves live parts up to 1000 V AC or 1500 V DC.
- Ensure that the protective insulation is intact in accordance with DIN EN 60900.
- Use the screwdriver with the correct blade profile (PZ 1) and check the blade length of 80 mm before use.
- Keep the screwdriver away from children.
- Avoid using bent or damaged screwdrivers, as this can lead to injuries.
