### Safety Instructions:

- Safety direction: When using the soft-face mallet, suitable safety goggles should be worn to protect the eyes from possible splinters.
- Safety direction: To avoid injuries, ensure that the hammer is only used on suitable workpieces and not on the hand or other parts of the body.
- Safety direction: When using the hammer, do not aim at your own foot or other vulnerable parts of the body.
- Safety direction: The hammer should be kept out of the reach of children to prevent accidents.
