Safety Instructions:

- Keep out of reach of children to avoid the risk of suffocation and injury from impact.
- Observe maximum load of the shelves: 50 kg.
- Ensure that the cabinet is positioned on a level surface to ensure stability and prevent tipping. Use height adjustment screws to ensure correct levelling on uneven floors.
- Suspend heavy objects on lower shelves for stability.
- Have a second person present during installation to avoid injury.
- Do not use aggressive cleaning agents for cleaning to avoid damaging the surface.
- Check the cabinet regularly for stability; tighten screws and connections.
- Ensure that the maximum capacity is not exceeded to avoid the risk of tipping.
- Product complies with applicable safety standards and must be tested regularly.
- Only use the cabinet on stable, level shelves for indoor use.
- Ensure child safety: Children must not play in the vicinity.
- Soft closing of the doors to prevent accidents.
- Contact the manufacturer immediately in the event of damage.
