Safety Instructions:

- Be aware of serious injury risks when assembling and using the cabinet.
- Do not load shelves above 50 kg to avoid overloading.
- Adjust the height adjustment screws in the plinth area correctly to ensure stability.
- Keep children away to prevent injury.
- Do not open sliding doors with excessive force to avoid damage.
- Ensure height compatibility with the surroundings to minimise the risk of falling.
- Only have the plinth height adjusted by a specialist to avoid stability problems.
- Only use the cabinet for its intended purpose to avoid injury.
- Protect the cabinet from sources of water to prevent moisture damage.
- Regularly check that screws and fastenings are tight to ensure safety.
- Set up on a stable and level surface.
- Do not overload the cabinet to ensure stability.
- Maintain sufficient distance when opening the sliding doors to avoid injury.
- Check the cabinet regularly to ensure the safety and integrity of all parts.
- Protect from direct sunlight and moisture.
- Place the cupboard in a stable position to prevent it from tipping over.
- Handle sliding doors correctly to avoid injury.
- Users should read the installation and operating instructions carefully.
